Health and Safety Training Fact sheet

Fire Safety awareness

Purpose of training: To give all employees the mandatory skills to prevent and respond to fires at workplaces

Duration of course: 90 minutes

Aim: To increase awareness of the dangers of fire at work, and to help employers achieve compliance with the training provision of the Regulatory Reform (Fire Safety Order) 2005

Objectives:

At the end of the course delegates will understand

- Fire Safety Management and the role of fire risk assessment
- Fire – its Dangers & Causes,
- People and fire – how people react and behave in emergencies
- The Fire Triangle, Fire safety issues and fire prevention
- Actions in the event of an alarm or discovering a fire
- Evacuation & assembly points
- Extinguishers – to use or not
- Other emergencies and their procedures

Target audience – employees at all levels. **South –east England only**

Group size Up to 25 delegates,

In-house course fees £225 per session

Biography of trainer:

Keith Allen CMIOSH, FRSPH, MEPS. Keith is director of Embers, a Chartered Health and Safety professional and has worked in health and safety for over 15 years as a consultant and trainer, mostly in the public sector, working for business, and the voluntary sector. He was also an emergency planner at Waverley Borough Council for 7 years including during the transition to compliance under civil contingencies legislation, from 2004, and was a member of the Local Resilience Forum training group.

Continued overleaf

He is a member of the Emergency Planning Society and has substantial experience in business continuity management. He covers the UK, subject to client's requirements.
